SUMMARY

AI Engineer with 2 years of experience shipping LLM-powered features to production in Python, FastAPI and PostgreSQL. I build reliable, secure AI systems with evaluation and human oversight built in, backed by a BSc in Computer Science (Cyber Security).

SKILLS

AI: LLMs, AI agents, prompt engineering, model evaluation
Languages: Python, TypeScript, SQL
Backend: FastAPI, REST APIs, PostgreSQL, system design
Tools: Docker, Git, GitHub Actions (CI/CD), Linux, React

EXPERIENCE

AI Engineer | MindEdu Platform, International Academy of Achievement (IAA) Aug 2024 – Jul 2026
School wellbeing and early-support platform

- Built LLM-powered insight features that turned staff observations into structured, non-diagnostic student insights, used by 3 schools and 8 staff.
- Designed backend services and data models for the secure school portal, managing records for 50+ students with 99% uptime.
- Automated support reports for teachers and counsellors, cutting report preparation from 10+ hours to under 1 hour.
- Implemented role-based access and safe-language guardrails for sensitive student data, with human review on every AI-generated insight.

Software Engineer Intern | International Islamic University Malaysia (IIUM) Aug 2023 – Dec 2023
Remote

- Developed features and REST API integrations for university web applications in an Agile team.
- Optimised database queries and wrote tests and technical documentation.

Frontend Developer | Asia Pacific University of Technology & Innovation (APU) Feb 2022 – Jan 2023
Kuala Lumpur

- Built responsive web interfaces and reusable UI components, integrated with backend APIs.

PROJECTS

AgentOps Control Plane | Python, FastAPI, PostgreSQL, React, Docker 2026
github.com/MohamedMahdiCS/agentops-control-plane

- Open-source platform for running AI agents safely: policy-enforced tool calls, human approvals and crash-safe execution.
- Built a deterministic evaluation and benchmark engine that scores agent runs 0–100 and gates releases in CI; 230 automated tests.

EDUCATION

Master of Computing and Informatics | Multimedia University (MMU) Sep 2026 – Oct 2027 (expected)

BSc (Hons) Computer Science (Cyber Security) | Asia Pacific University (APU) Sep 2021 – Aug 2024

CERTIFICATIONS

- Python for Data Science, AI & Development | IBM (2026)
